Линейки пришли. Отличная упаковка. Продавец отдельным письмом предупредил, что в комплекте не будет батареек, за что отдельное спасибо. Работают отлично, правда на станок еще не ставил. Точность измерения, насколько получилось сравнить с цифровым штангенциркулем, соответствует заявленой.

Great item. I'm very happy with them and recommend this item. I got them for a small milling machine and they are perfect for it. They read accurately and the ABS, zero and set functions work perfectly. The inch reading has a nice feature with the display of imperial fractions shown after the measurement. The seller done a top job with the postage as it was well packaged.
